

INDEX TO VOLUME 79

- 37^D **Allegrina M.**, see Fornero E.
57^A **Aquila E.**, see Berlfiore M.C.
27^A **Argenti E.**, see Conte A.M.
1^A **Balassone G.**, see Petti C.
1^S **Baldanza A.**, see Di Bella M.
61^S **Barca D., Cirrincione R., De Vuono E., Fiannacca P., Ietto F. and Lo Giudice A.**, The Triassic rift system in the northern Calabrian-Peloritani Orogen: evidence from basaltic dyke magmatism in the San Donato Unit.
11^D **Barca D.**, see De Francesco A.M.
81^A **Bargossi G.M.**, see Marocchi M.
57^A **Barone G.**, see Berlfiore M.C.
91^S **Basso R. and Carbone C.**, Relationships between crystal data and crystal chemistry of carpholite-group minerals.
57^A **Belfiore C.M.**, Western production of “Ionian cups of type B2”: a preliminary archaeometric study to identify workshops in eastern Sicily.
1^A **Bernardi A.M.**, see Petti C.
1^D **Biagioni C., Bonaccorsi E., Perchiazzi N. and Merlino S.**, Single crystal refinement of the structure of Baghdadite from Fuka (Okayama Prefecture, Japan).
113^A **Biagioni C.**, see Orlandi P.
1^D **Bonaccorsi E.**, see Biagioni C.
11^D **Buffone L.**, see De Francesco A.M.
21^D **Burragato F., Gaglianone G., Gerbasi G., Mazziotti-Taglianti S., Papacchini L., Rossini F. and Sperduto B.**, Fibrous mineral detection in natural soil and risk mitigation (1st paper).
91^S **Carbone C.**, see Basso R.
11^D **Ciarallo A.**, see De Francesco A.M.
61^S **Cirrincione R.**, see Barca D.
27^A **Conte A.M., Palladino D.M., Perinelli C. and Argenti E.**, Petrogenesis of the high-alumina Basalt-andesite suite from Sant’antioco Island, SW Sardinia, Italy.
37^D **Croce A.**, see Fornero E.
73^S **De Bonis A., Grifa C., Langella A., Mercurio M., Perrone M.L. and Morra V.**, Archaeometric study of roman pottery from Caudium area (Southern Italy).

-
- 11^D **De Francesco A.M., Scarpelli R., Barca D., Ciarallo A. and Buffone L.,** Preliminary chemical characterization of Roman glass from Pompeii.
- 61^S **De Vuono E.,** see Barca D.
- 95^A **de' Gennaro B.,** see Mercurio M.
- 95^A **de' Gennaro M.,** see Mercurio M.
- 81^A **Dellisanti F.,** see Marocchi M.
- 1^S **Di Bella M., Russo S., Pino P., Baldanza A. and Sabatino G.,** Evidence of Early Oligocene submarine volcanism in the Caltanissetta Basin (Central-Southern Sicily).
- 61^S **Fiannacca P.,** see Barca D.
- 37^D **Fornero E., Musa M., Croce A., Allegrina M., Trivero P. and Rinaudo C.,** ACCOUNT of an innovative procedure for the analysis of inorganic particles in the PM₁₀.
- 81^A **Foschini A.,** see Marocchi M.
- 21^D **Gaglianone G.,** see Burragato F.
- 81^A **Gasparotto G.,** see Marocchi M.
- 21^D **Gerbasi G.,** see Burragato F.
- 1^A **Ghiara M.R.,** see Petti C.
- 95^A **Grifa C.,** see Mercurio M.
- 73^S **Grifa C.,** see De Bonis A.
- 81^A **Grillini G.C.,** see Marocchi M.
- 61^S **Ietto F.,** see Barca D.
- 57^A **Lamagna G.,** see Belfiore C.M.
- 95^A **Langella A.,** see Mercurio M.
- 73^S **Langella A.,** see De Bonis A.
- 61^S **Lo Giudice A.,** see Barca D.
- 45^S **Marchi M.,** see Vola G.
- 81^A **Marocchi M., Dellisanti F., Bargossi G.M., Gasparotto G., Grillini G.C., Foschini A. and Rossi P.L.,** SEM-XRD investigation of deterioration morphologies and consolidation prior to restoration: the case of Porta Nuova in ravenna (Italy).
- 21^S **Massonne Hans-J.,** Phase relations and dehydration behaviour of calcareous sediments at very-low to low grade metamorphic conditions.
- 21^D **Mazziotti-Taglianti S.,** see Burragato F.
- 57^A **Mazzoleni P.,** see Belfiore M.C.
- 57^A **McConnell B.E.,** see Belfiore M.C.
- 95^A **Mercurio M., Mercurio V., de' Gennaro B., de' Gennaro M., Grifa C., Langella A. and Morra V.,** Natural zeolites and white wines from Campania region (Southern Italy): a new contribution for solving some oenological problems.

-
- 73^S **Mercurio M.**, see De Bonis A.
 95^A **Mercurio V.**, see Mercurio M.
 1^D **Merlino S.**, see Biagioni C.
 113^A **Moëlo Y.**, see Orlandi P.
 1^A **Mormone A.**, see Petti C.
 95^A **MorraV.**, see Mercurio M.
 73^S **MorraV.**, see De Bonis A.
 37^D **Musa M.**, see Fornero E.
 113^A **Orlandi P., Moëlo Y. and Biagioni C.**, Lead-antimony sulfosalts from Tuscany (Italy). X. Dadsonite from the Buca della Vena mine and Bi-rich izoklakeite from the Seravezza marble quarries.
 27^A **Palladino D.M.**, see Conte A.M.
 21^D **Papacchini L.**, see Burragato F.
 1^D **Perchiazzi N.**, see Biagioni C.
 27^A **Perinelli C.**, see Conte A.M.
 73^S **Perrone M.L.**, see De Bonis A.
 1^A **Petti C., Balassone G., Bernardi A.M., Mormone A., Rossi M. and Ghiara M.R.**, Ejected rocks from the 1872 eruption of Vesuvius, Italy: a petrographic and mineralogical overview.
 1^S **Pino P.**, see Di Bella M.
 37^D **Rinaudo C.**, see Fornero E.
 1^A **Rossi M.**, see Petti C.
 81^A **Rossi P.L.**, see Marocchi M.
 21^D **Rossini F.**, see Burragato F.
 1^S **Russo S.**, see Di Bella M.
 1^S **Sabatino G.**, see Di Bella M.
 11^D **Scarpelli R.**, see De Francesco A.M.
 21^D **Sperduto B.**, see Burragato F.
 57^A **Spigo U.**, see Belfiore M.C.
 37^D **Trivero P.**, see Fornero E.
 45^S **Vola G. and Marchi M.**, Quantitative phase analysis (QPA) of the Luserna Stone.
